THE following advertisement was published in May, 1819, in the "Boston Daily Times," and various other meropapers in the United States, by James G. Wilson, East, the owner of the "Woodworth Patent," shortly after I had alvorised my "PATENT STATIONARY CUTTEN, PLANING, TUNGLEING, AND GROUVING MACHINE," throughout the United States: "PLANING MACHINES.

"I take this method of answering the frequent inquiries by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Kuift. Plading Machines attempted to be paimed off upon several person ignorant of their true worth. I would state for the information of the intrue worth. I would state for the information of the intrue worth. I would state for the information ones offered by soveral prelonding inventors, do scribed in this 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1701. A like inachine was patented in this country by one Kugère, some six teed years since, and another one put up by Albert Richler was pastented in the public to know that after fifty eight years experimentally the one induced about the same time. at the cost of the machine and five jeer cent for my trouble.

JAMES G. WHISON.

May 19, 1819.

Ideny that any person ever saw or heard of such a machine as mino until I invented the same. Said machine was operated in the month of August, 1819, and no machine before this could do so much work, and do it as well as mino. In reply to the above advertisement, and in order that the pubble may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an egnal amount from said Wilson, that ONE of my machine; will plane, our plane, tongue and groore with least power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Botton, Mass, or at such other place as may be convenient for such a trial.

JOHN DWIGHT & COS SODA SALÆRATUS SUDA SALIEMBALUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-it.

The attention of the public is called to this article as being superior to Ferathit, Salacrains in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda beingmore econgenial to the human system than Potash. It is more economical than Pearlash Salacraita—a less quantity being required to produce the same effect. The article is just up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s

Washing & Cleansing Powders, which will be found, on trial, a very superior article, savin much labor of washing Clothes, &c. It will soften har water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other from works leaving the iron perfectly dry, and not liable to rust. Directions for use are printed on each package.
